The Role of Cardiac Imaging in the Management of Cardiac Disease in the Female Patient

October 3, 2015 8:30 AM – 5:45 PM  Crowne Plaza, Cherry Hill New Jersey

Please join your fellow specialists and professionals for the only event in our region with a clinical focus on Cardiac Imaging and Cardiac Disease in the female patient. This live symposium will provide an engaging opportunity to collaborate and identify emerging technologies that play a pivotal role in the cardiac care of the female patient with particular focus on imaging, practice guidelines and substantive discussion of research, innovation and accuracy.

Guest Presenters:
Linda Gillam MD, MPH, FACC, FAHA, FASE, FESC
Past President of the American Society of Echocardiography, Chairman of Cardiology Morristown Memorial Hospital, Atlantic Care Health System, Morristown, NJ

Farooq Chaudhry, MD, FACP, FACC, FASE, FAHA
Professor of Medicine, Director, Echocardiography Laboratories, Associate Director, Mount Sinai Heart Network, Icahn School of Medicine at Mount Sinai, NY, NY

Sharmila Dorbala, MD MPH
Director of Nuclear Cardiology, Brigham and Women’s Hospital, Associate Professor Harvard University Medical School, Boston, MA

Bette Kim, MD
Assistant Clinical Professor of Medicine, Division of Cardiology, Mount Sinai St. Luke’s and Roosevelt Hospital, NY, NY

Leslee Shaw PhD, FACC FASNC, FAHA
Past President of the American Society of Nuclear Cardiology, Vice President of the Society of Cardiac Computed Tomography (SCCT), Professor of Medicine, Division of Cardiology, Emory University School of Medicine

Program Chair:
Dr. Renee Bullock-Palmer, MD, FACC, FASNC, FASE
Director of the Women’s Cardiac Center
Director of Non-Invasive Cardiac Imaging
Deborah Heart and Lung Center

This activity has been planned and implemented in accordance with the Medical Society of New Jersey Essential areas, Elements and Policies of the Accreditation Council for Continuing Medical Education (ACCME) through Deborah Heart and Lung Center which is accredited by the ACCME to provide continuing medical education for physicians.

CME Credit
Deborah Heart and Lung Center designates this education activity for a maximum of 7.5 AMA PRA Category 1 Credits. Physicians should only claim credit commensurate with the extent of their participation in the activity.

ASE CEU Credits. Approved for 7.5

The program is designed to assist the nurse in understanding the role of cardiac imaging in the management of Cardiac Disease in the female patient.

Objectives:
- Discuss the use of Nuclear Stress Testing in special populations.
- Discuss the various radiation reduction strategies in Nuclear Imaging.
- Discuss the role of Nuclear Imaging in diagnosing Sarcoidosis.
- State the role of echo in the management of Valvular disease.
- Discuss the value of 3D imaging in making diagnosis’s xxx.
- Discuss Hypertrophic Cardiomyopathy management in females.
- State the use of Cardiac CT in making decisions.
- Discuss the management of LVAD.
- A pre and post test will be given.
- The entire session must be attended and all requirements must be met to receive credit.
- There is commercial support for this program.
- Disclosure information: Full disclosure will be provided at the educational activity.
- Accredited status does not imply endorsement by DHLC, NUSNA, or ANCC

Commission on Accreditation of any commercial products displayed in conjunction with this program.

Section I: Nuclear SPECT/PET Perfusion imaging in Women
- Diagnosis and Risk Stratifications in Special Populations - Dr. Renee Bullock-Palmer
- Radiation Reduction Strategies Including the Use of New Technology Solid State Cameras - Dr. Leslee Shaw
- Nuclear Imaging in the Diagnosis of Sarcoidosis - Dr. Sharmila Dorbala

Section II: Echocardiography in the Female Patient
- Valvular Heart Disease in Women - The Role of Echocardiography in Percutaneous Therapies - TAVR and Mitral Clip - Dr. Linda Gillam
- Cases Where 3D Echo Made a Difference - Dr. Allen Morgtader
- Stress Echocardiography - Clinical Updates on Stress Echo and Increasing the Workflow in the Lab - Dr. Farooq Chaudhry
- Management of Hypertrophic Cardiomyopathy in the Female Patient - Dr. Bette Kim
- Surveillance and detection of Chemotherapy-induced Cardiomyopathy with Echoardiography - Dr. Linda Gillam

Session III: Cardiac CT In Female Patients
- Use of Coronary Calcium Score for Risk Stratification - Dr. Leslee Shaw
- Radiation Reduction strategies in Cardiac CT - Dr. Renee Bullock-Palmer
- Latest EPS Technologies - Dr. Rafaelle Corbisiero
- Management of Left Ventricular Assist Devices (LVADS) in Heart Failure Patients - A Heart Failure Specialist’s Perspective - Dr. Jennifer Mazzoni
- A CT Surgeon’s Perspective - Dr. Paul Burns
